

## Meritor Part

Meritor Parts - The Meritor Business is a premier international dealer established upon one hundred years of tradition of service and quality. Meritor focuses on integrated systems along with a range of modules and components to the original machinery manufacturers and aftermarket equipment within the industrial and transportation trades.

Meritor values the needs of all their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their global operations. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and hiring over 11,200 people, Meritor encourages innovation and collaboration amongst a team of knowledgeable professionals.

Meritor strongly believes in just employing future focused individuals. These top-caliber workers can quickly get used to to changing environments and freely demonstrate the level of commitment and performance needed so as to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor provides their staff different opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering which include drivelines, axles, braking and suspension systems designed for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is even responsible for supporting the requirements of their global engineering workers.

The Quality team at Meritor is a customer-focused and dynamic group that is committed to ensuring optimum development at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 nations.

The supplier development network is specifically situated to be able to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in each and every part of the trade. The DFSS or also known as Design for Six Sigma ensures product reliability in each region. The team is also included transactional Green Belts who utilize Six Sigma tools to business methods and implement lean methods.
