

## Clark Forklift Part

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those in commission in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual items designed for 20 unique brands of lift trucks and automated equipment. Your regional Clark Dealer is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Worldwide, Clark has one of the most outstanding dealer support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a standard feature on every lift truck.

Clark's relentless effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the globally accepted quality standard ISO 9001 for every one of their production facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has selected the system of "Lean Production" at all of its assembly facilities for the reason that this technique is particularly economical and permits minimal use of resources. Developed to ensure maximum proficiency, this system is designed to find and acknowledge the most effective ways for manufacturing facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to enhance the proficiency and excellence of their products while minimizing expenses. The contemporary value engineering agenda combines modern product improvement and provides improved client support and service within the industry.
