

## Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment can automatically activate to both dump and release as soon as the bumper release contacts the side of a dumpster. Once unloading is finished, the hopper can return to original upright and locked position. This piece of machinery also comes together with a cable which enables operation from the seat of the lift truck so as to have the option of manually dumping the hopper. There is a locking chain provided in order to secure the hopper to the tine truck. This product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper likewise has a blue powder coat finish in order to maintain durability.
