

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating since 1974, becoming the biggest independent spreader producer in the world. They are a dedicated maker of spreaders used for many different applications like for example the handling of containers, swap bodies and trailers.

Engineering is done in house by way of making use of all the latest FEM tools and CAD systems. The ELME company now has over one hundred twenty five employees. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes across the world.

The product range of ELME include lots of spreaders utilized for different container and trailer handling operations. Some of their inventory include: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders as well as a wide range of attachments.

Production and manufacturing of ELME products are established in highly automated purpose designed factory. In the year 2008, they made one thousand one hundred fifty spreaders by way of using quality components to be able to ensure reliability and top standards. Major features of ELME consist of design simplicity, market reaction and ground-breaking modular spreader concept.
